

Palace Cinema Advertising

Cinema Advertising offers a sophisticated yet affordable advertising opportunity that targets a captive audience.

Once screening is under way, your ad is bigger, louder and more receptively watched than any other medium – viewers can't fast-forward, channel-surf, click-away or turn the page when your ad is running. Even talking during the ads is often frowned upon!

Ask us about static advertising opportunities too!

The Palace Cinema is the largest on the Island, and you can have a 20 second advert, just before the national advertising reel and the latest blockbuster movies, for as little as **£120* per week**.
